

AlcoHAWK[®] CA2010

Digital Alcohol Detector

Dual Light
LCD Display

Easy to Use

Short Warm-Up &
Response Time

Compact &
Lightweight

Multi-User
Mouthpiece Design

Smart & Sophisticated

The AlcoHAWK 2010 breath alcohol tester utilizes a sensitive semi-conductor sensor to test for the presence of alcohol. The CA2010 features *Maintenance Check Technology*. This feature allows you to periodically run a unit self-check to help you determine whether or not your unit needs servicing.

The CA2010 showcases an elegant and sophisticated design with a titanium colored glossy front panel and soft touch grip back panel.

Replaceable mouthpieces are ideal for the sanitary testing multiple individuals. Dual LCD lights indicate when an error is detected.

Specifications

Size	2.2" x 4.8" x 0.9"	Accuracy	$\leq \pm 0.01\%$ @0.10%BAC ²
Weight	3.9 oz	Battery Life	Over 300 Tests ¹
Housing	Shock Resistant, molded plastic	Power Supply	9V Alkaline Battery
Sensor	Semi-Conductor	External Power Supply	12V DC Adapter
Response Time	3 sec. ¹	Detection Range	0.00 - 0.40%BAC
Warm-Up Time	20 sec.	Digital Display	3 digits (2 after decimal)
Recovery Time	30 sec.	Warranty	1 Year Limited
		Calibration	Required Periodically ³

¹ Estimates, subject to vary.

² Read owner's manual before use and follow instructions carefully.
