- Temperature Range: -30°C to +70°C (-22°F to +158°F)
- Accuracy: $\pm 0.5K$
- Recording capacity: 32,000 measurements
- Ready to use, no programming necessary
- PDF report generator on board, no additional software needed
- Integrated USB port for direct PC connection
- Multi-level thresholds
- Mark function
- Multi-functional LCD display
- MKT calculation
- Multi-trip capable
- Including calibration certificate (on board)
- Temperature accuracy adjustable
- Compliant with tempmate® data management desktop software (Windows XP, Win7, Win8, Mac)
- Compliant with tempmate® data management cloud solution
